Nature Photography definition

Nature photography depicts living, untamed animals and uncultivated plants in a natural habitat, geology and the wide diversity of natural phenomena, from insects to icebergs.

Photographs of animals which are domesticated, caged or under any form of restraint, as well as photographs of cultivated plants are ineligible.

Minimal evidence of humans is acceptable for nature subjects, such as barn owls or storks, adapting to an environment modified by humans, or natural forces, like hurricanes or tidal waves, reclaiming it.

The original image must have been taken by the photographer, whatever photographic medium is used. Any manipulation or modification to the original image is limited to minor retouching of blemishes and must not alter the content of the original scene.

After satisfying the above requirements, every effort should be made to use the highest level of artistic skill in all nature photographs.

Definition of the black and white photography (monochrome)

This definition supersedes the Document 223 and the INFO 1991/12.

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey.

A black and White work toned entirely in a single colour will remain a monochrome work able to stand in the black and White category; such a work can be reproduced in black and White in the catalogue of a salon under FIAP Patronage.

On the other hand a black and White work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage.

Conditions of Entry

- All entries must be submitted in digital JPEG format.
- Each entrant may submit in all 5 sections, up to 4 entries per section. Entrant **MUST NOT** submit the same entry in other sections.
- Images shot on film **MUST** be scanned into digital format.
- Entrant must ensure that the digital images are properly burnt into the CD-ROM.
- The images must be in 8-BIT JPEG format. The image dimensions **MUST** be minimum 2000 pixels on the longer side of the image with minimal JPEG compression.
- Each image must be personal and exclusive work of the entrant.
